

# Future of Food - Open call #1

## Startup Opportunity

### ABOUT

The project aims to grow an interconnected EU network in bio-based industry by igniting a strategic collaboration between innovators and corporations, to ease and facilitate access to investors and finance in favor of sustainable development.

Future of Food Programme 1 topics:

- Agriculture
- AgTech & FoodTech
- Aquaculture, Fishing & Algae
- Food, Feed and Ingredients
- Hemp and Cannabis

### BENEFITS FOR YOU

The dynamic programme is focused on providing custom and unique learning and development pathways based on the needs assessment:

- Hybrid business and investment readiness support.
- Networking opportunities and pitching events.

- Matchmaking with investors and corporates.
- The opportunity to address innovation challenges set by leading corporations.
- Visibility and exposure through the BV Ambassador network.
- Possibility to kick off long-term partnerships.
