

### ABOUT

BioeconomyVentures aims to ignite a strategic collaboration between innovators and corporations in the bioeconomy in favour of sustainable development.

The project takes a custom and challenge-driven approach to scouting and selecting innovators, with its first programme domain focusing on "The Future of Food" topics:

- Platform and Specialty Bio-based Chemicals
- Bio-based Plastics and Materials
- Bio-based Paints & Industrial Coatings
- Bio-based Fragrances, Cosmetics and Personal & Home Care

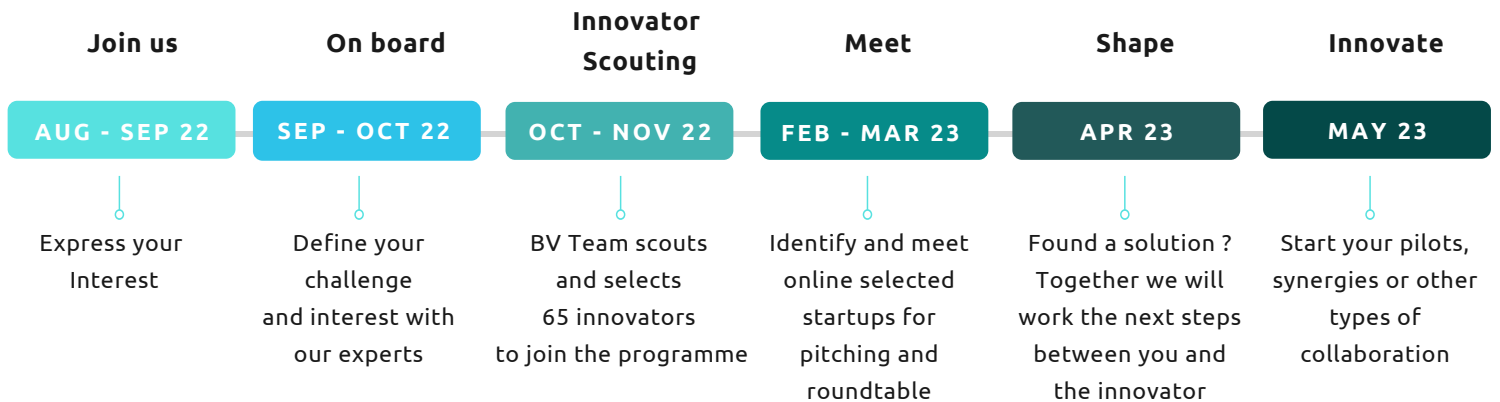

### HOW

- BioeconomyVentures will select 65+ promising EU innovators.
- With the support of the open innovation experts and the proven process, your company will establish challenges and find innovators to solve them.
- In a facilitated online meetup and pitching session your company can get familiar with innovators, dig into the details in one-on-one sessions, and identify opportunities to collaborate.
- The collaboration shaping session will follow to create the action plan for your partnership.

### BENEFITS FOR CORPORATION

- Cost-free chance to share Corporate Innovation.
- Meet-up session with 5+ startups of your choice to explore novel tech and growth oriented synergies.
- Exclusive invitation to in-vivo matchmaking and pitching days.
- Direct access to pre-vetted 65+ innovators on our exclusive matchmaking platform. The platform will grow to 200 innovators and 60 corporations by 2024.
- Explore new synergies and business models.
